

## INTERREG IV B North Sea Region Programme POWER cluster

### Fascination Offshore – A public acceptance initiative for offshore wind energy

Again in 2010 the interactive show will be touring to different harbours on the German and Danish North Sea and Baltic Sea coast providing answers to all sorts of questions related to energy generation from offshore wind.

A variety of interactive exhibits and audiovisual elements as well as models of offshore wind energy equipment adds to the attractiveness of the exhibition.

In 2009 more than 20,000 people visited the POWER cluster offshore wind energy exhibition installed on the museum ship Greundiek.

The exhibition, organised by the [German Offshore Wind Foundation](#), is partly financed by the Interreg IVB North Sea Programme of the EU and partly by the German Federal Ministry for the Environment, Nature Conservation and Nuclear Safety.
