

POWER cluster

Safety Centre for OWE personnel

In the future more technicians are needed in offshore wind energy. There are similarities concerning health and safety requirements between offshore wind energy and merchant navy seafarers.

Towards OWE staff

These trainings have been reviewed, in Power cluster WP 3, to it's content to get suitable and fulfil demands for OWE personnel. All existing trainings are according to Standard of Training Certification and Watchkeeping convention and therefore transnational.

Further action is to get a exercise tower. This will give a complete "Training station" for all personnel working with wind turbines both on- and offshore.
